Work Experience

Proventech Consulting Pvt Ltd (NTT DATA)
Mar 2025 - present

Associate Consultant
- Led end-to-end backup and restoration strategy using Veeam and Windows Server, ensuring 100% data recoverability.
- Deployed and managed VMware/Hyper-V-based VM infrastructure, optimizing performance and uptime for application servers
- Configured and monitored Cisco Layer 3 distribution switches, implementing VLAN segmentation, trunking, and high-availability routing.
- Developed full-stack MERN applications in hybrid on-prem/cloud infrastructure, integrating backend services hosted on VM's with automated CI/CD pipelines.

Infosys Limited
Oct 2024 - Mar 2025

Senior Engineer
- Developed scalable web applications using React.js, Node.js, and MongoDB/MySQL.
- Built and integrated RESTful APIs, with focus on performance optimization and clean architecture.
- Implemented user authentication, reusable UI components, and responsive design.
- Used Git, JIRA, and followed Agile practices for efficient project delivery.
- Deployed applications via AWS/Docker with CI/CD pipelines, ensuring smooth release cycles.

Coforge Pvt Ltd
Nov 2022 - Sep 2024

IT Associate
- Developed and maintained full-stack web applications using front-end (React) and back-end (Node.js) technologies.
- Designed and integrated RESTful APIs for seamless data exchange and enhanced application functionality.
- Worked with databases (MySQL, MongoDB) to optimize data storage and retrieval processes.
- Implemented responsive UI designs using HTML, CSS, JavaScript, and frameworks like Bootstrap for cross-device compatibility.
- Collaborated in agile teams to deliver features on time, utilizing CI/CD pipelines for smooth deployment and version control with Git.

Vanity India, Hyderabad
Jan 2021 - Jul 2021

Full Stack Developer
- Designed and implemented a website using (MERN) React and Nodejs to visualize data stored in MongoDB, Firebase.
- Ensured only authorized users have access to the application by creating an JWT Authentication function to intercept and sign valid requests.
- Devised and deployed the infrastructure in MERN application through AWS EC2 then created efficient algorithms to process data from a custom REST API, so it could scale to handle requirements.
- Strong experience with the version controls GIT, GITHUB and Package manager NPM.
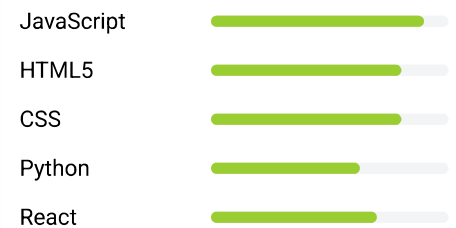

XYZ Innovations Pvt Ltd
Mar 2018 - Mar 2019

Software Developer
- Cooperate with designers to create clean interfaces and simple, intuitive interactions and experiences using React.
- Develop project concepts and maintain optimal workflow
- Complete detailed programming and development tasks for challenging back-end server code with Nodejs

Summary

Results-driven web developer with 4+ years of experience in frontend development and exposure to backend. Skilled in designing and developing high-quality web applications, integrating APIs, and working with databases.

Career Objective

Looking for a challenging role in a reputable organization to utilize my technical, database and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector
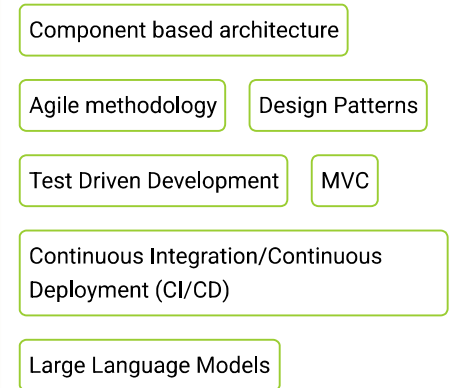

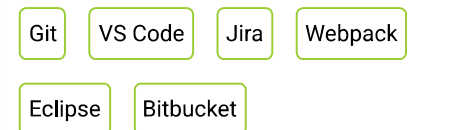

Technical expertise

JavaScript

HTML5

CSS

Python

React

Skills / Exposure

Algorithms   Progressive Web Apps

SQL   Data Structures   AutoML

Redux   jQuery   Firebase

Methodology/Approach

Component based architecture

Agile methodology   Design Patterns

Test Driven Development   MVC

Continuous Integration/Continuous Deployment (CI/CD)

Large Language Models

Tools

Git   VS Code   Jira   Webpack

Eclipse   Bitbucket

Education

B.Tech - Chemical Engineering

IIT Hyderabad   Aug 2013 - May 2017
